Fernwood Dental — Gentle Family Dentist in South Austin, TX

<https://fernwooddentalcare.com/>

Family dentist in South Austin offering preventive, cosmetic, emergency, and clear aligner care. New patients can book a calm dental visit online.

Mobile Snapshot

A snapshot of how your content appears on a mobile device.

WWW Canonicalization

Does the site appear on more than one URL?

Both www and non-www versions of the URL are redirected to the same site.

OpenGraph Meta

Does your site use OpenGraph meta tags?

Opengraph meta tags have been found.

Schema Meta Data

Does the content include relevant Schema.org metadata?

Schema.org data has been found on the page.

Sitemaps

Does the site use an XML sitemap?

No sitemaps found.

If you don't have an XML sitemap, the best option is to install a plugin that creates sitemaps for you. That way you'll know the sitemap will always be up-to-date. Plugins can also automatically ping the search engines when the XML file is updated.

The Rank Math WordPress plugin gives you complete control over your site's XML sitemaps. You can control the settings for each page as you write or edit it, and Rank Math will ping Google as soon as you submit your edits.

This results in fast crawls and indexing.

Robots.txt

Does your site have a valid robots.txt file

The site has a robots.txt file which includes one or more **Disallow:** directives. Make sure that you only block parts you don't want to be indexed. Try our [free robots.txt editor tool](#) to easily test and validate your robots.txt file.

Keep your content fresh

Checks for recent content updates using available signals (XML sitemap, og:updated_time, or Last-Modified header).

The content is fresh. Last updated on 2026-07-09 (0 days ago) via og:updated_time (XML Sitemap not found).

Broken Links

Detects broken or dead links (404/500 errors) in the website that may harm SEO and user trust.

No broken links on the page.

Performance

Page Size

An analysis of the size of your HTML file.

The size of the HTML document is 7 Kb, under the average HTML size of 33 Kb.

Response Time

How fast does your server respond to requests?

The response time is under 0.8 seconds which is great.

Image Headers Expire

Do your images use "expires" headers?

No local images found on the page

Minify CSS

Are your CSS files properly minified?

All CSS files appear to be minified.

Page Objects

Analysis of the embedded objects in the pages.

The page makes 3 requests.

- total:** 3
 - images:** 1
 - javascript:** 0
 - stylesheets:** 2
-

Minify Javascript

Does the site use minified JavaScript?

All Javascript files appear to be minified.

Mobile Speed

How fast does your website respond to mobile users?

The page performance is good across all key metrics.

Security

Theme Visibility

Theme Visibility

The theme is not publicly visible, so it is not easily identifiable.

Visible Plugins

Visible Plugins

Hurray! None of the plugins are publicly visible.

Directory Listing

Does your web server list the contents of the directories?

Directory Listing seems to be disabled on the server.

Secure Connection

Is your content served over a secure connection?

The site is using a secure transfer protocol (https).
